SKILLS

- C++, Java, JavaScript, Typescript, SQL,, MongoDB, HTML, CSS, Tailwind CSS, Solidity, Python, UI/UX Designing, Blockchain, Machine Learning, AI and API Integration.
- React.js, Next.js, Git, Github, Node.js, Express.js, Linux, Unix Data Analysis.

WORK EXPERIENCE

Chakravyuha CTF Event: Web Developer - [Certificate](#)

01/02/2025 – 23/02/2025

Lokmanya Tilak College of Engineering

- Developed web applications for Chakravyuha a **Capture the Flag (CTF)** cybersecurity event.
- Gained hands on experience in building **secure web platforms** by learning and mitigating real world vulnerabilities (e.g. XSS, SQLi, CSRF, SSRF).
- Strengthened understanding of **web application security** and ethical hacking by simulating and defending against penetration attacks.

PROJECT

Safar (Live Project) - [Link](#)

- Developed a web-based travel assistant that helps users track expenses and plan trips based on preferences and budget.
- Integrated **location-based chat and feeds** to connect travelers with locals, promoting authentic experiences and real-time support.
- Enabled **community-driven travel safety** by reducing scams for non-local travelers through verified local interactions.

SplitChain - ICP Crewhouz 2025 winner - [Link](#)

- Built a DApp that allows users to **split bills and collect payments in multiple cryptocurrencies** seamlessly.
- Integrated **wallet compatibility** to support various tokens for flexible and secure peer-to-peer transactions.
- Implemented a **reward points system** that users earn through transactions, redeemable for gift cards and other perks.

Secret Manager – Built at EthIndia 2024 - [Link](#)

- Secure Data Protection: Leverages Lit Protocol and advanced encryption to safeguard sensitive information and ensure secure transactions.
- AI Powered Insights: Uses realtime analytics to provide actionable insights for smarter, faster decision making.
- Streamlined Operations: Combines encryption and AI to enable trustworthy, seamless and efficient data management.

Rasoi Sathi - [Link](#)

- Minimizes Food Waste: Helps individuals and businesses reduce waste through expiry tracking, meal suggestions and smart food management.
- Supports Communities: Connects surplus food with local shelters, aiding those in need and strengthening community support.
- Promotes Sustainability: Lowers carbon footprint and raises awareness about ecofriendly and sustainable food practices.

EDUCATION

Lokmanya Tilak College of Engineering – 8.00 CGPA

July 2022– May 2026

B.E Computer Science and Engineering (IoT & Cyber Security including Blockchain Technology)

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Software Engineering,

Computer Network, Object-Oriented Programming, Database Management System, Web development

Model College, Khambalpada – 78 %

July 2019– June 2021

12th, HSC Board

CO-CURRICULAR

• President - CSESA

August 2024- June 2025

Organised 20+ Events including National Level CTF and Hackathon.

• Technical Member & Design Head - Student Council

August 2024- June 2025

Created 100+ Posters and Designs for college events

• Co Technical Head - Google Developers Group

August 2024- June 2025

Organised College Level Coding Competition
